SOURCE
25X1X [REDACTED]

1. The 1951 planned production of pig iron in Czechoslovakia is 2,500,000 tons. By June 1951 actual production was 400,000 tons less than planned for this period. The discrepancy between planned and actual production is expected to continue to increase. It is estimated that the total pig iron production for the year 1951 will be 1,800,000 tons.
2. The production plan for 1952 calls for the production of four million tons of pig iron.
